

BARJAN WINDOW TREATMENTS MADE EASY

Blinds: Vertical & Horizontal; Shades, Drapes & Top Treatments

Please refer to the WINDOW TREATMENT QUESTIONNAIRE / CHECKLIST

Windows come in all shapes & sizes, and are placed in many different positions. There are floor-to-ceiling window walls, clearstory or windows placed high up on a wall, skylights, sliding glass doors and "regular" room windows. Refer to the Barjan Catalog for some illustrations of window treatments. Some basic information is required to formulate a quotation. Be sure to supply all dimensions for the window and surrounding wall surfaces. Make a separate drawing for each window and label the area and room number

Placement: What area of the window and/or surrounding wall do you want to cover?
Inside the window frame (IB); Outside the window frame (OB); Cover entire wall

Mounting: to Wall, to Ceiling; what type of surface are we mounting to?

Measurements: WIDTH: Left to Right LENGTH: Top to Bottom

Controls: Placement and length of control (rod, string, chain etc.)

Stacking: One-way draw to Left or Right; Center Draw (opens in middle & stacks on both sides)
